HyFlex Classroom Technology Hardware

SPS Classrooms:

- Mobile video kit
- On-site student casual video assistant

CUIT Smart Rooms:

- Vaddio PTZ camera with 20x zoom in the back of the room for lecture capture
- Wide-angle camera at the front of the room to capture student participation
- Podium mic and in-room lavalier mic for presenter to wear
- Crestron panel with pre-programmed video angle presets

How HyFlex Will Work

- Use the podium computer in the classroom to log into your Canvas course site
- Click on the “Zoom Class Sessions” page in the left navigation and start their scheduled class session
- Turn on your microphone and video in Zoom
- Do a “tech check” with the remote students to confirm that they can see and hear what’s happening in the classroom
- If any of these steps cause problems, reach out for help (SPS Instructional Support, CUIT, or whoever manages that respective classroom)
